ABOUT AECA:

The Atlanta Electrical Contractors Association (AECA) is the leading, professional trade association representing, promoting, and advancing the electrical contracting industry in Georgia since 1929. AECA leads the industry in the practical application of new and emerging technologies in the construction industry and the public it serves.

- We employ approximately 7,000 professionally trained electrical technicians and more than 800 electrical technician trainees.
- We hire more than 500 additional trainees each year.
- We strive to ensure a safe and drug-free working environment.
- We need career-minded individuals who are eager to learn and grow with the electrical industry in Atlanta.
